#### Co-director

You will be working with the other director to develop a unified vision on screen. Your focus will be on storyboards, shot angles, etc, more the artistic-technical side. How to capture the story on film. The other director's focus is on the actors, rehearsals, also the set, etc. Your artistic opinion will still be valued in all aspects. During shooting, you will be the shooting director. Yelling action and cut. Major changes would still need to be cleared with the other director. It will become your responsibility to see that the acting on screen meets the quality developed in rehearsals. Shooting will probably take place in June for about 4 - 6 weeks so everything must be prepared. You **MUST HAVE EXPERIENCE DIRECTING!** (No experience, don't apply!) **MUST BE WILLING TO TRAVEL TO TORONTO AND NEW YORK.** You must be very **KNOWLEDGABLE** about how to shoot a film, **COOPERATIVE, DEDICATED** and **EASY-GOING**. You don't mind working the long hours to create the best product. This will be a payed job.
